## COVID-19 & People with IDD: Taking Action to Mitigate Risk

*Dr. Craig Escudé*

Presented by  
Craig Escudé, MD, FAAFP, FAADM

COVID-19 is a world-changing event for all of us. For people with IDD, besides the impact to their health and wellness, there are real risks of losing supports and services both during the crisis and afterward. This webinar will focus two things: risks and risk mitigation. Dr. Craig Escudé, President of Health Risk Screening, Inc., will discuss the impact on health AND on the IDD support system. His discussion will include practical action steps that can be taken to help reduce the impact of these rapidly changing challenges.

**Wed. Apr 8, 2020 | 4:00 PM - 5:00 PM EDT**
