

## Office of Developmental Programs

### Electronic Visit Verification "What Administrative Entities and Supports Coordination Organizations Need to Know" Webinar

The 21st Century CURES Act requires Electronic Visit Verification (EVV) systems for Medicaid-funded personal care services (PCS) and home health care services. The Department of Human Services has been implementing an "open" EVV system to capture data specified by the CURES act since November of 2019. This will be an opportunity for staff from Administrative Entities and Supports Coordination Organizations to learn about the execution, status, and processes associated with EVV in Pennsylvania. Office of Developmental Programs staff will be available to answer questions.
