

## ODP COVID-19 Vaccine Webinar Now Available

The Office of Developmental Programs co-hosted a webinar with the Jewish Healthcare Foundation that explains the importance of COVID-19 vaccination from the scientific and community perspectives. The one-hour webinar offers facts and information to help the participants make informed choices as well as to use when assisting others in their communities. This presentation also includes frank discussion of the losses that have been encountered by many as a result of COVID-19 infections.

The presentation is 1 hour.
