QUESTIONS FOUND ON THE ISP SIGNATURE PAGE	DESCRIPTION
1. I attended and led my ISP meeting, where possible. 4. I have been informed of the right to select a qualified and willing provider (including Supports Coordination Organization) at any time and have been given a list of qualified providers.	The SC is responsible to inform the participant of free choice of all willing and qualified providers, including Supports Coordination Organizations. The SC is responsible to provide a copy of the statewide list of all qualified providers at each ARP meeting.
5. I have been informed that I have the right to receive the services on my ISP and the right to choose when, where, and how to get those services.	The participant has the right to choose the time, location, and how to get their services.
6. I have been informed about Participant Directed Services (PDS).	The SC should inform the participant about the opportunity to direct their services through PDS by explaining the basics of PDS services and the ability to change their mind at any time during the process. The SC should ask the participant if he/she is interested in learning more about the PDS services and choices. If interested, the SC should get a release signed and make the referral for PDS services.
7. I have selected and agree with the identified services and providers (both paid and unpaid) identified in my ISP.	The SC has ensured that the participant agrees with the identified services (both paid and unpaid) and providers reflected in his/her ISP.
8. The services in the waiver have been reviewed and explained to me, including employment services.	The SC is responsible to ensure the participant is aware of and understands the types of services that are available in the Adult Autism Waiver (AAW) and has been offered employment services.

The SC is responsible to review this information with the participant/representative and ensure the participant understands the importance of keeping his/her release up to date: HIPAA mandates certain standards and practices with regard to the privacy of consumer health information. The law requires BSASP to obtain written permission before BSASP uses or releases medical and certain other information. Participants have the right to see and copy his/her health information, to correct or add information, to receive a list of where his/her protected health information has been sent, to ask BSASP to restrict the use and disclosure of his/her protected health information, and to request BSASP to communicate with him/her in a certain way or at a certain location. The participant may change his/her current HIPAA release form at any time.

Each person who attended the meeting should print their name, title, agency, and relationship to the participant; phone number and/or email address; sign and date their signature and date column; and check that he/she attended in person on the signature page. If a team member joined by phone, the SC should print that team member's name, title, agency, and relationship to the participant, and check off that the team member joined by phone.
